Online Respirator Clearance

A breath of fresh air

INSIGHT
ONSITE

examinetics

New online respirator clearance will assist your company by increasing the speed and productivity for obtaining the OSHA required clearances.

Your employee clearance reports will be stored and available to you on our world-class, HIPPA-compliant, XM Network.

A sampling of the online respirator reports are provided here. This is only a small section of the range of reports we could provide to your organization 24/7. The entire list of XM Network reports is available on our website.

- Alphabetical listing of employees
- Respirator Medical Clearances
- Qualitative Fit Reporting
- Quantitative Fit Reporting

Online Respirator Clearance is easy

1. Contact us or your Sales Executive to sign up for the new service.
2. Provide Examinetics with a participant list. Examinetics will send participants either an e-mail or a preprinted card with the e-mail address and their unique security token to use at sign on.
3. Participants will confirm their identity with one demographic variable (excluding their social security number).
4. At the end of the session, participants will click on the "submit" button and have the option to print out their responses.
5. The next business day, clearances are available on the administrator site for inquiry or printing. Reporting will also advise who started a questionnaire and did not yet complete and submit results.

Benefits of Online Clearance Tool

- Cost Effective
- Easy for your employees - allows them to stay onsite, reduces the paperwork
- Quick - only takes 20 minutes to complete
- Streamlines process with employee tracking and status reports
- Quality evaluations by Examinetics medical professionals
- Consistent measurements on questionnaire
- Results within next business day
