*Alliance will improve worker productivity for clearances*

---

Overland Park, KS - May 31, 2015 – Examinetics, Inc., the leader in mobile occupational health screening and data management services, announces a new strategic alliance with Occupational Health Dynamics (OHD) for Online Respirator Clearances.

Earlier this year at AOHC in Baltimore, MD, Examinetics and OHD publicly announced their joint efforts to implement the Online Respirator Clearance program. OHD can now offer a nationwide, medically backed respirator clearance for their clients. The clearance is to be completed prior to fit testing with the OHD Quantifit<sup>®</sup> respirator fit tester. The Online Respirator Clearance from Examinetics perfectly complements OHD's desire to keep employees safe when wearing respirators in the workplace. After employees participate in the Online Respirator Clearance, the real-time results can immediately be seen, even for test results across multiple locations.

Dr. Kent Peterson, M.D., medical director for Examinetics, has created rules for the various clearance levels pursued by businesses using respirators. If further clearance questions are needed, our professional staff will reach out to the individual. The online convenience and speed, paired with the medical backing, is what OHD needed for their clients' convenience. This eliminates the need for employees to obtain clearance at a clinic in order to do his or her job. While the clearance program is offered online, paper questionnaires are also available upon request. Both versions are available in English and Spanish.

## **About Examinetics:**

Headquartered in Overland Park, KS, Examinetics is the largest provider of onsite occupational health screening and data management services in the United States. Examinetics employs more than 250 people, including in-house audiologists and other occupational health specialists. Their fleet has over 100 mobile units with national reach. Examinetics has over 2,200 clients and services over 8,500 locations to reduce the time and cost normally associated with sending employees to a clinic in order to

stay in compliance with governmental programs. To learn more about Examinetics and their portfolio of services go to [www.examinetics.com](http://www.examinetics.com).

**About Occupational Health Dynamics:**

Headquartered in Hoover, AL, Occupational Health Dynamics (OHD) sells a range of products and services that revolve around the industrial hygiene and occupational health markets. This includes the OHD Quantifit<sup>®</sup>, which is the newest proven technology in measuring respirator fit. OHD is also national in their reach for products and services. Like Examinetics, OHD holds a very high standard when providing services to their clients. To learn more about OHD and their portfolio of services go to [www.ohdusa.com](http://www.ohdusa.com).
