

## WORKFORCE HEALTH SERVICES DELIVERED AT YOUR LOCATION

Our mobile, onsite and technology platforms help companies achieve regulatory compliance, minimize productivity loss and acquire vital data required for optimal health outcomes

### WHY EXAMINETICS?

- National coverage
- Cost effective onsite solution
- Compliance and wellness programs
- Convenience and flexibility

Examinetics assists businesses of all sizes and industries protect and empower their employees through safety, compliance and health programs.

We own a fleet of more than 130 mobile units that come to you. Our fleet is at your disposal, providing flexible scheduling options and a centralized solution to all your occupational health needs. Your employees stay onsite and resume work in an hour, maximizing employee productivity.

With our national presence, Examinetics is one of the only providers with scale to cover the entire 48 contiguous states. That means you get consistent and dependable service no matter your locations. Examinetics is your single source, turnkey partner from start to finish. Our broad portfolio of health and compliance services means we can help with the multiple needs of safety managers.

## COMPLIANCE SERVICES

When it comes to your workforce, safety and productivity are always top of mind. With Examinetics, you get both while staying compliant with worksite regulations. You need a partner who can deliver dependable services to protect your employees and your bottom line.

Examinetics delivers exceptional service to worksites across America and has you covered for medical compliance screening and surveillance. We have extensive experience developing hearing conservation and respiratory protection programs as well as other regulatory compliance services. Our team of medical professionals, industrial audiologists and trained technicians are ready to serve your organization's distinctive requirements.

## HEALTH SERVICES

Examinetics provides wellness exams designed to protect your employees' health, mitigate risk and track the long-term health effects of exposure in the workplace. Our innovative health screening program provides options for biometric screening, blood pressure, height and weight, waist circumference, hearing, vision and more.

## DATA MANAGEMENT

Examinetics makes data management easier than ever. Our on-demand XM Solutions platform provides an environment that transforms your data into usable reports and analytics. You can organize your data by departments or facility, elevating your ability to highlight your success and pinpoint areas of concern.
